

## My Notes on Revelation

These are my notes on Revelation. Compare my understanding of this Book to what the Christians and the Vatican have told you. I interpret Revelation as a dream about a very real end. As my eyes are open by His Word, I believe my interpretation is better than theirs...

1. Don't worry about the lengthy opening where John of Patmos talks about gifts. This is to test your worth...
2. The first four seals, are a vision of horseman. These riders represent man's power – the sword, the bow, the scales (judgment), and death, hell, and hades. It is notable that the angel indicates that at the end oil and alcohol will be cheap but food will be expensive. It is notable that man will be given authority to kill, to spread famine, and plague. Also notable is that wild beasts will also kill.
3. The fifth seal indicates the righteous and their keeping of the Word of God. It also indicates that those who were persecuted for this will cause those that did so punishment. What this tells me is at the end, the Word of God will be removed from the world, as He says, "not until all those who witness have been persecuted as you.."
4. The sixth seal begins with a vision that is actually a depiction of what happens in heaven (in the spirit). Then it goes into the four angels. The 144,000 sealed first fruits is a fancy way of saying that the righteous path is a narrow path leading to a narrow door, and few are they that find it. Later you will see that by the will of the righteous, a great multitude was saved.
5. The seventh seal is where we stand as of 2025. Right now, we have experienced endless wild fires, and rivers are sometimes blood red in color. Fish are washing ashore from the ocean in large numbers. In North America, we have lost 3,000,000,000 birds in the last 3 years alone. The stars falling from the skies represent nuclear bombs. The ships being destroyed are of world war. Wormwood represents an asteroid. This all covers the world in soot, making the sun, moon, and stars cease to give light. The first disaster of the last 3 trumpets describes insects attacking humans, which will spread disease and plague. This also represents biological weapons (we already know of Coronavirus, which the Americans released to buy time to prepare for world war three after Trump's south china sea incident in 2019.) The next angel released horses – so remember how I said the horses represent the power of man? This represents man's world war, which will kill a third of the entire human race. John eating the scroll represents the chief scribes and pharisees. It tastes sweet in the mouth because of faith, but bitter in the stomach because it is a lie about Jesus – where it depicts Jesus preaching the evil of hell – a complete perversion of his Word.
6. The two olive trees, the two lampstands: This is obviously John of Patmos (Revelation) and Nostradamus. These are the only two legitimate prophets concerning the end of the age of man, and their message continues to get louder and louder.
7. The seventh trumpet sounded. This was the timing of the judgment. The woman having feet of the moon and clothes of the sun represents a child that was born (the son of man). The woman being the earth, and the child being the seed of the earth. Satan was there. The third of the stars being hurled at the earth again represent nuclear weapons (supernova bombs). Michael battled Satan as did the angels (2019). The river being spewed from Satan represents sea level rise from climate change. (all of you are the child – the seed of the earth – it's not just me). The two beasts are: the first beast is Rome. The

second beast is USA. USA erects a statue (the statue of liberty). The mark of the beast is money (the Caesar coin – who's mark is on this coin?). The number 666 is for a human being, meaning "Nero", in Greek, the emperor of the Ancient Roman Empire. Revelation used to describe the first beast that had multiple horns, heads, and crowns as (7 hills, 7 kings, Ancient Roman empire.) The seven horns were 7 emperors, 5 that were, 6 that is (Nero), and one to come. The great city refers to New York City. The prostitute is USA, but rather, the rich. The one to come was the pope (Pontious Pilate) who remains the tenth king, as the Ancient Roman Empire became the Holy Roman Empire in the year 800 ad. The second beast being America, the mystery woman that rides the beast, the great whore, named Babylon, is USA – whose statue of liberty is a greek goddess of fertility (a gift for world war II), who has made the world rich by her fornications, namely, oil. This is why USA is babylon, and not the actual babylon, which is modern day Iraq.

8. The angels bearing plagues. The only thing that ends world war three is famine. The world will be a radioactive wasteland. The world will be a mess, with diseases. These plagues represent the space in time after world war three. It is my understanding that during world war three, Lucifer will pose as the Second Coming of Christ, and will rule the Vatican. The word of God will be eliminated from the world, and this Jesus will have everyone following a new way. When Lucifer and World War is over, because of world wide famine, these plagues and attempts at survival is what the world is left with. World War Three will usher in the days of the end, and the remaining time on earth is a fruitless effort at survival. It describes sores, the ocean dries off, rivers and springs turn red blood, scorching heat from the sun (climate change – hothouse earth), the Holy Roman Empire plunges to darkness as Lucifer is the Second Coming of Christ, the Euphrates dries up, and the bowl in the air represents nuclear war.

9. During Armageddon, every last human will die. This is what it means by the great city, babylon, and everything being hurled into the fire. Death. It says Satan is put into the Abyss. Then comes judgment. It is my understanding that the Judgment comes in the spirit, after everyone has died. Judgment comes as soon as we die, seemingly. There will be a space of thousands of years of heaven, under the rule of Immanuel. There will not be humans on earth. Remember what Jesus said: "this sky will pass away, and the heaven above it, but my word will never die. Do you seek your death that you look to the end? The world is a corpse. The end is where the beginning is." It describes Satan, the devil, and hell, and the false prophet (Mohammed), being cast into the fires. This burning lake is the second death – in other words, death in the spirit.

10. A new heaven and a new earth emerges. (In the end, the earth will be desolate, and void of life. And the heavens and the earth shall roll up like a scroll, and the earth shall be laid bare, revealing the works of man). It seems it is God's intention to have created a new world that you will go to after this one, having transported your heaven there. The description of New Jerusalem is describing this city in heaven, on that earth, in that place.
